HEADLINES

List of news headlines
published in 2019.

30/01/2019 | PRESS RELEASE

Are fisheries affecting seabird juvenile survival during the first days at sea?

Renewable Marine Resources (Joan Navarro, Marta Coll)

01/02/2019 | PRESS RELEASE

Fishermen and scientists recover 450 gorgonians in Cap de Creus thanks to ResCap project

Marine Biology & Oceanography (Josep María Gili, Andreu Santín)

05/02/2019 | PRESS RELEASE

More than 700 experts in ecology meet at the 1st SIBECOL congress

Institut de Ciències del Mar (Celia Marrasé)

08/02/2019 | PRESS RELEASE

MITICAP, a collaboration project between scientists and fishermen, concludes

Marine Biology & Oceanography (Josep María Gili, Andreu Santín)

11/02/2019 | PRESS RELEASE

The Mediterranean Center for Marine and Environmental Research covers it frontside with art

Institut de Ciències del Mar (Josep Lluís Pelegrí)

26/02/2019 | ONLINE NEWS

ICM researchers participate in the book Sex Control in Aquaculture

Renewable Marine Resources (Francesc Piferrer, Mercedes Blázquez)

28/02/2019 | PRESS RELEASE

High levels of organophosphorus flame retardants and plasticizers in marine mammals

Renewable Marine Resources (Joan Giménez)

12/03/2019 | PRESS RELEASE

Global models underestimate impacts from climate extremes events

Renewable Marine Resources (Marta Coll)

14/03/2019 | ONLINE NEWS

The ICM works on ethics with the course “Biology and Care of Cephalopods”

Renewable Marine Resources (Mercedes Blázquez, Roger Villanueva)

28/03/2019 | PRESS RELEASE

Rafel Simó gets an Advanced Grant in the last ERC call

Marine Biology & Oceanography (Rafel Simó)

10/04/2019 | PRESS RELEASE

Importance of toothfish in the diet of generalist subantarctic killer whales

Renewable Marine Resources (Joan Giménez)

22/05/2019 | PRESS RELEASE

Climate change and biological invasions: perspective of artisan Mediterranean fishermen

Marine Biology & Oceanography (Joaquim Garrabou)

29/05/2019 | PRESS RELEASE

Hundreds of students participate in the III Congress of Young Oceanographers at the Institut de Ciències del Mar

Marine Literacy Committee (Carine Simon)

04/06/2019 | PRESS RELEASE

Marine protected areas in front of climate change: challenges and opportunities

Marine Biology & Oceanography (Joaquim Garrabou)

12/06/2019 | PRESS RELEASE

Ocean warming could cause an important decline in global marine species at the end of the century

Renewable Marine Resources (Marta Coll)

01/07/2019 | PRESS RELEASE

Tribute to Josefina Castellví, pioneer antarctic scientist

Institut de Ciències del Mar

10/07/2019 | PRESS RELEASE

ICM scientists describe the epigenetic mechanisms underlying the onset of animal domestication

Renewable Marine Resources (Dafni Anastasiadi, Francesc Piferrer)

11/07/2019 | PRESS RELEASE

What to do if you are stung by a jellyfish

Marine Biology & Oceanography (Josep María Gili)

17/07/2019 | ONLINE NEWS

ICM-CSIC and The National Space Science Centre (NSSC-CAS) from China sign an agreement to promote remote sensing research

Physical and Technological Oceanography (Marcos Portabella)

18/07/2019 | PRESS RELEASE

Marine litter may reach up to 38% of the fisheries catch next to urban areas

Renewable Marine Resources (Eve Galimany, Elena Marco-Herrero)

23/07/2019 | PRESS RELEASE

Seagull monitoring to measure the risk of pathogen transmission

Renewable Marine Resources (Joan Navarro)

08/08/2019 | PRESS RELEASE

Bacteria, and not algae, capture the most solar energy in the oceans

Marine Biology & Oceanography (Laura Gómez-Consarnau, Pep Gasol)

13/08/2019 | PRESS RELEASE

New study establish the basis to manage ocean acidification refugia

Marine Biology & Oceanography (Lydia Kapsenberg)

27/08/2019 | PRESS RELEASE

Sponge skeletons as an important sink of silicon in the global oceans

Marine Geosciences (Gemma Ercilla)

02/09/2019 | PRESS RELEASE

Seismic crisis reveals the growth of a young fault system in the Alboran Sea

Marine Geosciences (Eulàlia Gràcia)

19/09/2019 | PRESS RELEASE

ICM scientists detect unexpected increases in dissolved organic carbon in the Atlantic Ocean

Marine Biology & Oceanography (Cristina Romera-Castillo)

20/09/2019 | PRESS RELEASE

40th anniversary of the CSIC oceanographic boat García del Cid

Institut de Ciències del Mar & Unidad de Tecnología Marina

23/09/2019 | PRESS RELEASE

ICM researchers participate in the major Arctic scientific expedition

Physical and Technological Oceanography, Marine Biology & Oceanography
(Carolina Gabarró, Manuel Dall'Osto)

03/10/2019 | PRESS RELEASE

The scientific research sailboat Tara returns to Barcelona and celebrates an open day

Marine Biology & Oceanography, Marine Literacy Committee (Silvia Acinas)

22/10/2019 | PRESS RELEASE

The Southern Ocean became a source of CO₂ at the end of deglaciation, 12,000 years ago

Marine Biology & Oceanography (Carles Pelejero, Eva Calvo)

14/11/2019 | NOTÍCIA WEB

Francesc Piferrer becomes a member of the Barcelona *Reial Acadèmia de Ciències i Arts*

Renewable Marine Resources (Francesc Piferrer)

15/11/2019 | PRESS RELEASE

Global trends in marine plankton diversity across kingdoms of life

Marine Biology & Oceanography (Silvia Acinas, Pep Gasol)

21/11/2019 | PRESS RELEASE

High resolution cartography of the Gulf of Cádiz geologic structures

Marine Geosciences (Eulàlia Gràcia, Roger Urgeles)

27/11/2019 | PRESS RELEASE

Cristina Romera-Castillo, awarded by L'Oreal-UNESCO For Women in Science

Marine Biology & Oceanography (Cristina Romera-Castillo)

28/11/2019 | PRESS RELEASE

A new conceptual model predicts key characteristics of major earthquakes and tsunamis

Marine Geosciences (Valentí Sallarés, César Ranero)

09/12/2019 | PRESS RELEASE

The ICM develops the first epigenetic clock in fishes

Renewable Marine Resources (Dafni Anastasiadi, Francesc Piferrer)

18/01/2019 | PRESS RELEASE

ASLO honors Cristina Romera-Castillo with the 2020 Raymond L. Lindeman Award

Marine Biology & Oceanography (Cristina Romera-Castillo)
